

# Planetary Intelligence Request for Proposals

## CROSS CUTTING PLATFORM

This **cross-cutting platform** supports all flagship destinations by **addressing gaps in the observation system**, establishing **measurement**, and providing **data-driven actionable insights** through advanced techniques, such as innovative sensing technologies and AI.

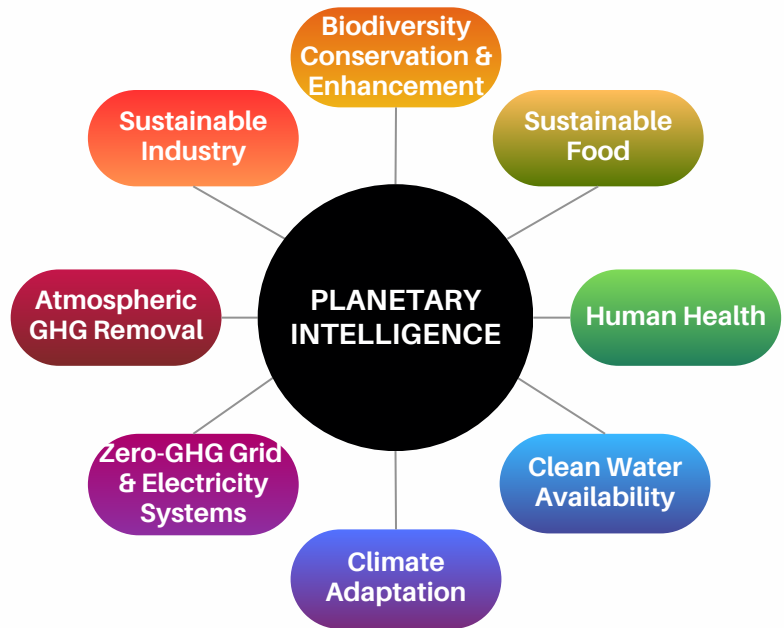

## SCOPE AND THEMES

Of interest are projects that use a combination of measurement, data, and data analytics to inform and enable **impact at scale** across the following areas:

We encourage cross-thematic projects

**All projects must inform actionable outcomes and be driven towards implementable solutions.**

## EVALUATION CRITERIA

Transformative Potential / Innovation

Impact

Scalability

Feasibility

The Accelerator supports projects at three levels:

Development Stage	Level 1 - Scoping	Level 2 - Developing	Level 3 - Scaling
Funding	\$50K - \$150K	\$150K - \$500K	Up to \$1M
Project Length	6 Months - 1 Year	1 - 2 Years	2 Years
